Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 38, 41-45, drawn to a method of detecting a neutralizing antibody response in a patient that is directed to a viral envelope protein, classified in class 435, subclass 4.
- II. Claims 39, 40, 46-51, drawn to drawn to a method of detecting a neutralizing antibody response in a patient that is directed to a viral capsid protein, classified in class 536, subclass 23.72.

The inventions are distinct, each from the other because of the following reasons:

Groups I and II are drawn to methods and each is distinct from the other because they utilize different starting materials, therefore the outcomes are not be expected to be the same. Group I is drawn to a method of assaying whether a patient is producing neutralizing antibody to a viral envelope sequence. The method steps utilize a patient derived viral envelope sequence. Group II is drawn to a method of assaying whether a patient is producing neutralizing antibody to a viral capsid sequence. The method steps utilize a patient derived viral capsid sequence. Though there may be overlap between these two methods in question for groups I and II, each utilizes different materials and therefore the outcome is expected to be different.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the search for one group will not necessarily be coextensive with the search for the other group, restriction for examination purposes as indicated is proper.

Art Unit: 1648

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
